ATTENTION!

These blocks are made with natural aggregates and sold as is. They have been produced according to industry standards and meet the specifications required. It is best to erect a sample panel of the masonry or landscape assemblage prior to installation. *If you have questions regarding this product, cease installation and contact the manufacturer immediately.*

WARNING!

DO NOT CLEAN BLOCK WITH NON-BUFFERED MURIATIC OR HYDROCHLORIC ACIDS!

Use a cleaner made for concrete masonry and follow the manufacturer recommendations.

Clean the blocks with:

The most appropriate cleaner and dilution should be determined on the specific job site, and will be dependent primarily on the nature and severity of soiling present. Apply all cleaning products in accordance with manufacturer recommendations provided on container labels and product data sheets. On site testing should be conducted to determine the most appropriate cleaning product and procedures. See product literature for additional application and product information.
