

SPLITFACE BLOCK **COLOR PALETTE**

AMSTONE[®]
SPLITFACE ARCHITECTURAL SERIES

Since the mid-sixties, splitface or rockface masonry units have been used for all types of construction, offering exclusive benefits to the building's owner, designer, and contractors.

ONE-STEP INSTALLATION: AmStone™ provides finished structural or non-structural walls in a single contractor, one-step operation. Amcon Concrete Products can offer significant savings in time and money.

NATURAL BEAUTY: AmStone provides naturally colored aggregates from different parts of the country. They offer a wide color range and long-life performance that you would expect from masonry.

DESIGN FLEXIBILITY: Amcon rockface block offer the designer flexibility through a variety of colors, scoring, chamfers, patterns, bullnose, and other special shapes.

WATER REPELLENT: AmStone can be manufactured with integral water repellent admixture providing a wall that resists water absorption. Amcon Concrete Products has been a certified integral water repellent manufacturer since 1989.

MAINTENANCE-FREE: Amcon's rockface finishes will last the lifetime of your building.
